TRAINING CIRCULAR

Subject: Knowledge Co-Creation Program on “Strategy for Resilient Societies to Natural Disasters” to be held in Japan from 06.01.2020 to 22.02.2020 under the Technical Cooperation Program of the Government of Japan (Submission Deadline-31.10.2019).

The undersigned is directed to state that the Japan International Cooperation Agency (JICA) has invited applications for Knowledge Co-Creation Program on “Strategy for Resilient Societies to Natural Disasters” to be held in Japan from 06.01.2020 to 22.02.2020 under the Technical Cooperation Program of the Government of Japan.

2. The program aims to promote making resilient society by sharing experiences and good practices in Japan and participating countries. The program also seeks to contribute to achievement of the Global Targets of the Sendai Framework by providing insights/methods for practical implementation of local DRR (Disaster Risk Reduction) strategies/plans.

3. The applying organizations are expected to nominate officers currently engaged in DRR and (will be) involved in the formulation/implementation of disaster risk reduction plans for natural disasters at local or central government level with more than 3 years of the occupational experience in the relevant field. The officer should be a university graduate or equivalent; have competent command over spoken and written English; must be in good health (both physically and mentally). More information may be seen in the general information brochure.

4. In addition, the following information in respect of the nominated officers may please be mentioned while furnishing the nomination:-

- a) Whether attended any foreign training program in the past? If so, the duration/details thereof;
- b) Whether cleared from vigilance angle;
- c) Age;
- d) Whether working in North East State/J&K;
- e) A brief in 50-100 words justifying the nomination.

5. The course covers the cost of a round-trip air ticket between international airport designated by JICA and Japan; travel insurance from the time of arrival in Japan to departure from Japan; allowances for (accommodation, living expenses, outfit and shipping); expenses for JICA study tours and free medical care for participants who may fall ill after reaching Japan (costs relating to pre-existing illness, pregnancy, or dental treatment are not included).

...2/-

(2)

6. It is, therefore, requested that the nomination of suitable candidates may please be forwarded **(in two copies)** to this Department in JICA's prescribed format duly authenticated by the HOD of the concerned Ministry/Department in accordance with the eligibility criteria.

7. The applications should reach this Department through the Administrative Ministry/Department not later than **31.10.2019**. Nominations received after the prescribed date may not be considered. An advance copy from the applying organization for nomination(s) and the application form(s) can be sent to the JICA India Office via courier or email at bapalahema.id@jica.go.jp or ShekarD.ID@jica.go.jp. The details of the program (General Information Brochure) and application form may be drawn from the website of DoPT at link <http://persmin.gov.in/otraining/index.aspx>.

8. This issues subject to the approval of the competent authority.

JFY2019

NO. 201984485J002 / ID. 201984485

Course Period in Japan: From January 6, 2020 to February 22, 2020

This information pertains to one of the JICA Knowledge Co-Creation Programs (Group & Region Focus) of the Japan International Cooperation Agency (JICA), which shall be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

'JICA Knowledge Co-Creation (KCC) Program' as a New Start

In the Development Cooperation Charter which was released from the Japanese Cabinet in February 2015, it is clearly pointed out that *“In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.”* We believe that this 'Knowledge Co-Creation Program' will serve as a center of mutual learning process.

I. Concept

Background

The number of natural disaster of the world is increasing, and the disaster remain a major drawback to sustainable development. Looking at the characteristics of past disasters in Japan and the world, it is said that the disaster with the highest frequency of occurrence is flood damage and the disaster with the most damage is an earthquake.

In Kobe, Japan, the Great Hanshin flood occurred in July 1938 causing 925 lost lives as exceptionally heavy torrential raining caused landslides. On January 17th, 1995, the Great Hanshin-Awaji Earthquake shook violently Kobe and nearby cities resulting in losses of more than 6,000 lives and property damage of over 10 trillion yen (US\$ 100 billion). The lessons learnt from the past disasters and the future strategies for disaster reduction were encapsulated in the Hyogo Framework for Action 2005 – 2015 (HFA) which was announced at the United Nations World Conference on Disaster Reduction (UNWCDR) held in Kobe in January 2005. The HFA strongly calls for pro-active measures for disaster risk reduction (DRR) and the holistic and comprehensive approaches to integrate efforts of all the stakeholders involved in DRR. On March 11, 2011, the Great East Japan Earthquake followed by Tsunami caused unprecedented level of damages to Japan, and DRR is considered as of prime importance more than ever before.

HFA was followed by “Progress and challenges in disaster risk reduction: a contribution towards the development of policy indicators for the post-2015 framework for disaster risk reduction” in 2014, which called for a new paradigm such as land use planning, eco-system management, socio-economic impact assessments, involvement of other stakeholders, and climate change related policies.–Besides, “The Sendai Framework for Disaster Risk Reduction 2015-2030” was adopted as post-HFA at the UN 3rd World Conference on Disaster Risk Reduction in Sendai, Japan, 2015, which is to promote activities on disaster risk reduction worldwide. According to the Sendai Framework for DRR, there are 4 Priorities for Action.

1. Understanding disaster risk;
2. Strengthening disaster risk governance to manage disaster risk;
3. Investing in disaster risk reduction for resilience;
4. Enhancing disaster preparedness for effective response, and to “Build Back Better” in recovery, rehabilitation and reconstruction.

Besides these Priorities for Action, there are 7 global targets. Among the 7 global targets, Target (e), “Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020”, is recognized as an important keystone to achieve the other targets, which are expected to achieve by 2030.

While global efforts are currently in place to meet Target (e) in close future, steady implementation of what are written in the national and local DRR plans in each country is also a crucial element.

In Japan, both national and local governments such as Kobe city had been making an effort to strengthen society to be resilient against natural disaster by implementing, verifying and revising our DRR strategies/plans. This program seeks to contribute to achievement of the Global Targets of the Sendai Framework by providing insights/methods for practical implementation of local DRR strategies/plans in order to make resilient society against natural disasters.

The Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development were adopted at the United Nations in September 2015. The most relevant Goal and Target in resilient society to disaster are the followings;

Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable.

Target 11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with **the Sendai Framework for Disaster Risk Reduction 2015-2030**, holistic disaster risk management at all levels.

Therefore, having resilient societies to natural disaster is crucial for achieving sustainable development.

Disaster Risk Reduction (DRR) is essential for building resilient society and attaining sustainable development in disaster-prone countries.

For what?

This program is designed to promote making resilient society by sharing experiences and good practices in Japan and participating countries. The program also seeks to contribute to achievement of the Global Targets of the Sendai Framework by providing insights/methods for practical implementation of local DRR strategies/plans.

For whom?

This program is designed for officials who are engaged in DRR in the countries suffered from the high frequency of natural disasters.

How?

This program consists of lectures, on-site visits, and discussions to provide participants with knowledge of establishing strategy for Disaster Resilient Societies. Aside from Japanese experiences on disaster “response”, “recovery and reconstruction”

and “preparedness” in disaster management cycle, this program emphasizes on the importance of mitigation and its Japanese experiences, since mitigation is the most important for reducing the risk of disaster.

Also participants are expected to formulate and present a feasible Action Plan to implement current DRR strategies/plans effectively and to verify/revise them as necessary.

<p>To implement the Action Plan.</p>	<p>Dissemination, finalization and implementation of the action plan in the participant's country.</p>

III. Conditions and Procedures for Application

1. Expectations for the Participating Organizations:

- (1) This program is designed for organizations that intend to address specific issues or problems identified regarding making strategies for resilient societies to natural disasters in their operation. Participating organizations are expected to utilize this program for those specific purposes.
- (2) This program is enriched with contents and facilitation schemes specially developed in collaboration with relevant prominent organizations in Japan. These special features enable the program to meet specific requirements of applying organizations and effectively facilitate them toward solutions for the issues and problems.
- (3) As this program is designed to facilitate organizations to come up with concrete solutions for their issues, participating organizations are expected to support the participants to prepare their presentation on the Job Report, which is described in this General Information.

2. Nominee Qualifications:

Applying Organizations are expected to select nominees who meet the following qualifications.

Essential Qualifications:

- 1) Current duties: be officials currently engaged in DRR and (will be) involved in the formulation/implementation of disaster risk reduction plans for natural disasters at local or central government level.
- 2) Experience in the relevant field: have work experience of more than 3 years in the field mentioned above.
- 3) Educational background: university graduate or equivalent.
- 4) Language: **have a competent command of spoken and written English. Especially, this program includes several intensive workshops and discussions in English.** (Please attach an official certificate for English ability such as TOEFL, TOEIC, etc., if possible).

3. Required Documents for Application:

- (1) **Application Form:** The Application Form is available at **the JICA office (or the Embassy of Japan).**

* If you have any difficulties/disabilities which require assistance, please specify necessary assistances in the Medical History (1-(d)) of the application forms. It may allow us (people concerned in this course) to prepare better logistics or

alternatives.

- (2) Photocopy of passport:** to be submitted with the Application Form, if you possess your passport which you will carry when entering Japan for this program. If not, you are requested to submit its photocopy as soon as you obtain it.

*Photocopy should include the followings:

Name, Date of birth, Nationality, Sex, Passport number and Expiry date.

- (3) Nominee's English Score Sheet (Photocopy):** to be submitted with the Application Form, if you have any official documentation of English ability (e.g., TOEFL, TOEIC, IELTS).

- (4) Job Report:** Each candidate is required to submit a Job Report together with Application Form. Job Report will be used for screening of applicants, and applications without completed Job Report will not be considered as duly qualified. (Please refer to P14 **ANNEX1-1**)

4. Procedure for Application and Selection :

(1) Submission of the Application Documents:

Closing date for applications: **Please inquire to the JICA office (or the Embassy of Japan).**

After receiving applications, the JICA office (or the Embassy of Japan) will send them to **the JICA Center in JAPAN by November 15, 2019.**

(2) Selection:

After receiving the documents through proper channels from your government, the JICA office (or the embassy of Japan) will conduct screenings, and then forward the documents to the JICA Center in Japan. Selection will be made by the JICA Center in consultation with concerned organizations in Japan. The applying organization with the best intention to utilize the opportunity of this Program will be highly valued in the selection.

Qualifications of applicants who belong to the military or other military-related organizations and/or who are enlisted in the military will be examined by the Government of Japan on a case-by-case basis, consistent with the Development Cooperation Charter of Japan, taking into consideration their duties, positions in the organization, and other relevant information in a comprehensive manner.

Gender Consideration: JICA is promoting gender equality. Women are encouraged to apply for the program.

(3) Notice of Acceptance:

Notification of results will be made by the JICA office (or the Embassy of Japan) not later than **November 29, 2019**.

5. Document(s) to be prepared by accepted participants before coming to Japan:

(1) Presentation on the Job Report: please see Annex1-2 “Presentation of Job Report”

Date of the presentation: the 1st ~ 2nd week of this program

Style of the presentation: Power Point presentation

(10-15 slides with the photos that explain your activities)

-Participants are required to bring the national or local plan/strategy for DRR in your country and the development master plan* of a city where you choose as a pilot city. (Please refer to **ANNEX-1-2, page 17**)

*The Development Master Plan ; The basic plan/philosophy of the city development for the future

Participants are recommended to bring some useful data such as video, documents, etc.

6. Conditions for Attendance:

- (8) to observe the rules and regulations of the accommodation and not to change the accommodation designated by JICA.

IV. Administrative Arrangements

1. Organizer:

(1) **Name:** JICA Kansai

(2) **Contact:** Ms. Ayaka UDA

(Uda.Ayaka.2@jica.go.jp and jicaksic-unit@jica.go.jp)

2. Implementing Partner:

- Kobe International Center for Cooperation and Communication (KIC)

http://www.kicc.jp/index_en.html (English)

3. Course Leader:

(1) **Name:** Mr. Yuichi Honjo

Research Professor - University of Hyogo

(2) **Remark:** Mr. Honjo played a key role for formulating and implementing the recovery plan of Kobe City (10-year plan), after the Great Hanshin Awaji Earthquake. He travels around the world to share Kobe's lessons and his know-how which he wishes to serve as a reference for recovery from natural disaster in each country with people concerned. After the Great East Japan Earthquake, he took part in the formulation of Sendai City's recovery plan as an adviser.

4. Travel to Japan:

(1) **Air Ticket:** The cost of a round-trip ticket between an international airport designated by JICA and Japan will be borne by JICA.

(2) **Travel Insurance:** Coverage is from time of arrival up to departure in Japan. Thus, traveling time outside Japan will not be covered.

5. Accommodation in Japan:

JICA will arrange the following accommodation(s) for the participants in Japan:

JICA Kansai Center (JICA Kansai)

Address: 1-5-2, Wakinohama-kaigandori, Chuo-ku, Kobe, Hyogo 651-0073, Japan

TEL: 81-78-261-0383, 81-78-261-0341 FAX: 81-78-261-0465

(where "81" is the country code for Japan, and "78" is the local area code)

If there is no vacancy at JICA Kansai, JICA will arrange alternative accommodations for the participants. Please refer to facility guide of JICA Kansai at its URL,

<https://www.jica.go.jp/kansai/english/office/index.html>

6. Expenses:

The following expenses will be provided for the participants by JICA:

- (1) Allowances for meals, living expenses, outfit, and shipping,
- (2) Expenses for study tours (basically in the form of train tickets),
- (3) Free medical care for participants who become ill after arriving in Japan (costs related to preexisting illness, pregnancy, and dental treatment are not included), and
- (4) Expenses for program implementation, including materials.

For more details, please see “III. ALLOWANCES” of the brochure for participants titled “KENSU-IN GUIDE BOOK,” which will be given before departure for Japan.

7. Pre-departure Orientation:

A pre-departure orientation will be held at the respective country’s JICA office (Embassy of Japan), to provide participants with details on travel to Japan, conditions of the participation in the program, and other matters.

V. Other Information

1. Participants who have successfully completed the program will be awarded a certificate by JICA.
2. For the promotion of mutual friendship, JICA Kansai encourages international exchange between JICA participants and local communities, including school and university students as a part of development education program. JICA participants are expected to contribute by attending such activities and will possibly be asked to make presentations on the society, economy and culture of their home country.
3. Participants are recommended to bring laptop computers for your convenience, if possible. During the program, participants are required to work on the computers, including preparation of Action Plans, etc. Most of the accommodations have internet access. Also, there is a computer room in JICA Kansai where 6 desk-top computers are available with internet access.
4. Allowances, such as for living, outfit, and shipping, will be deposited to your temporary bank account (opened by JICA) 2 to 5 days after your arrival in Japan. It is highly advised to bring some cash in order to cover necessary expense for this period.
5. It is very important that some of your currency must be exchanged to Japanese Yen at any transit airport or Kansai International Airport (KIX) in Osaka, Japan soon after your arrival. It is quite difficult to exchange money after that, due to limited availability of facility or time during the program.
6. Short trips are arranged during the program. It would be convenient if you bring a small bag and comfortable shoes.
7. This program will be carried out in winter season and contains some outdoor observation/practice program(s). Therefore, participants are recommended to bring a heavy jacket and other preparations against cold weather. Average temperature between January and March in Kobe is below ten degrees Celsius.

ANNEX-1-2 PRESENTATION OF JOB REPORT

After selection, accepted participants are requested to make presentation of Job Report. Presentation session will be held at the beginning of the program in Japan. Please prepare and submit it after arrival in Japan.

1. Format:

- (1) Please modify your Job Report to a presentation file, using Microsoft PowerPoint®.
- (2) Please include the explanation of the national or local plan/strategy for DRR in your country and the development master plan* of a city where you choose as a pilot city. Please include:
 - 1) Table of contents of the national/local plan/strategy for DRR
 - 2) An item/items you want to focus in the plan/strategy
 - 3) Development master plan* of a city where you choose as a pilot city. (Please explain the outline of development master plan within 1-2 slides)
- (3) Please include pictures and maps for better understanding.
- (4) One presentation per participant.
- (5) Number of slides: about 10~15 slides.

2. Language: English

3. Presentation time: Approximately 15-20 minutes, including Q&A.

4. Presentation Date and Place:

To be informed at the beginning of the program in Japan

***The Development Master Plan : The basic plan/philosophy of the city development for the future**

Others:

- Please bring your Job Report presentation in electronic file. (PC, USB, etc.)
- Please bring material(s) as a sample of DRR activities in your country (If any) in order to share them with other participants and Japanese attendees.

ANNEX-2 Action Plan

In this program, participants are expected to formulate and present a feasible Action Plan that contribute to DRR in line with the national/local DRR plan/strategies and development master plan*.

What is Action Plan?

During the program, each participant is required to prepare his/her Action Plan(AP). He/she is expected to make a presentation of Action Plan at the end of the program in Japan and in his/her organization after returning to respective countries.

The purpose of its preparation is to identify a specific risk and a concrete measure for it. You are recommended to focus on one topic you are able to carry out after returning to your country. Moreover, the Action Plan is expected to be in line with the national/local DRR plan/strategies and development master plan* in order to achieve “resilient society to disaster”. Therefore, Action Plan should be concrete and practical. Please try to make your Action Plan by using the existing human and financial resources in your organization in a most efficient and effective way as much as possible.

【Contents of Action Plan】

<1>

- a. Title
- b. “Resilient” Society” for your country
 - Outline of the national/local DRR plan/strategies
 - Relation between the national/local DRR plan/strategies and development master plan*
 - Point/points you focused in this Action Plan
- c. Problems and causes
- d. Objectives (Goals)
- e. Description of target area
- f. Responsible bodies
- g. Stakeholders
- h. Activities (Short term/Long term) / measures
- i. Budget
- j. Implementation schedule(activities)
- k. Others

<2>

- a. Any awareness/findings that you gained in this program

Note: Participants will have more detailed guidance during the program in Japan.

JICA and Capacity Development

The key concept underpinning JICA operations since its establishment in 1974 has been the conviction that “capacity development” is central to the socioeconomic development of any country, regardless of the specific operational scheme one may be undertaking, i.e. expert assignments, development projects, development study projects, Knowledge Co-Creation programs (until 2015, so called “training”), JOCV programs, etc.

Within this wide range of programs, Knowledge Co-Creation Programs have long occupied an important place in JICA operations. Conducted in Japan, they provide partner countries with opportunities to acquire practical knowledge accumulated in Japanese society. Participants dispatched by partner countries might find useful knowledge and re-create their own knowledge for enhancement of their own capacity or that of the organization and society to which they belong.

About 460 pre-organized programs cover a wide range of professional fields, ranging from education, health, infrastructure, energy, trade and finance, to agriculture, rural development, gender mainstreaming, and environmental protection. A variety of programs are being customized to address the specific needs of different target organizations, such as policy-making organizations, service provision organizations, as well as research and academic institutions. Some programs are organized to target a certain group of countries with similar developmental challenges.

Japanese Development Experience

Japan was the first non-Western country to successfully modernize its society and industrialize its economy. At the core of this process, which started more than 140 years ago, was the “*adopt and adapt*” concept by which a wide range of appropriate skills and knowledge have been imported from developed countries; these skills and knowledge have been adapted and/or improved using local skills, knowledge and initiatives. They finally became internalized in Japanese society to suit its local needs and conditions.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from this “*adoption and adaptation*” process, which, of course, has been accompanied by countless failures and errors behind the success stories. We presume that such experiences, both successful and unsuccessful, will be useful to our partners who are trying to address the challenges currently faced by developing countries.

However, it is rather challenging to share with our partners this whole body of Japan’s developmental experience. This difficulty has to do, in part, with the challenge of explaining a body of “tacit knowledge,” a type of knowledge that cannot fully be expressed in words or numbers. Adding to this difficulty are the social and cultural systems of Japan that vastly differ from those of other Western industrialized countries, and hence still remain unfamiliar to many partner countries. Simply stated, coming to Japan might be one way of overcoming such a cultural gap.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.
